Event Archives

Event Archives will be going away on July 25th at midnight GMT. A countdown will display in-game showing the last chance to enter an event.

If a player has an event in progress when this countdown expires, then Event Archives will end after this event is either completed, or the player runs out of time to finish the event. In the meantime, the ability to skip to the next event has been made free, and new events can be started immediately after skipping or completing an event in the Archives.

Misc

- Replaced the Season 6 Formula E Cars in Daily Race with the Season 7 Cars
- Changed a night race on Hockenheim National Circuit in the 2021 NASCAR Season to use the day variant to assist track visibility
 - Racers will be able to claim a series re-completion bonus if they previously 100% completed the series
- Updated the branding on the New York and Berlin Formula E Circuits to reflect real-world changes

Race Team Competitions

We've been monitoring the recent Race Teams Competitions results and have noticed an increase in the number of cheaters.

Due to this, we will be taking the time to evaluate the feature. In the meantime, this will unfortunately mean we are indefinitely postponing all future Race Team Competitions.
